# CURRENT PERCENTAGE OF COMPLETION

SPRINT 1 = 100%
OVERALL PROJECT = 11.11%

SPRINT PLANNING/PROGRESS UPDATE

APR 22, 2025

Sprint-1 was quite thrilling, we have been given a lot of time to prepare the needed valuable stuff to do. We divided each task so we can conquer it easily, and I can say that we've worked pretty well.

We completed the tasks that are needed to be done in Sprint-1 e.g. User Story, Usecase, WBS and the Timeline Presentation that we made inside of Notion. Because of that, there will be no tasks that will be carried in the next sprint and we're clear to do the upcoming tasks.

SPRINT RETROSPECTIVE
APR 22, 2025

What went well:

- Tasks were divided and delegated to each member and was also completed on time making it a good collectivist practice. (Just like the wasps thus the name 'Devhive')
- Every output of each member correlates to each other's output.

What could be improved:

- Communication is the thing we should strive to work on and improve. As the Project Lead, I find that our groups communication is quite lacking and it would be a huge help and beneficial for the best of us if we communicate to each other in a good manner.

What needs to be done:

- As of the moment of writing, all tasks and stuff have been completed for Sprint-1 and was uploaded in our group's project repository.
- Improve every bit of details that each of us finds 'It needs to be reworked', ensure to properly review and evaluate the outputs that we produce.
- Review and prepare for the next sprint.
